

Medical Surgical Nursing
Teaching Plan

Second Semester

Medical Surgical Nursing Course

Course Title: Medical Surgical Nursing part I

Course Vision:

The vision of the fundamental Nursing is to be one of the leading professional nurses with excellent academic and clinical teaching for undergraduate nurses.

Course Mission:

Its Mission is to generate and expand fundamental and conceptual nursing knowledge in nursing sciences, that produces professionals with strong ethical value who are Capable of providing compassionate patient care and able to function within the social and cultural context of the community.

Course description:

This course is designed to orient the junior nursing student to the nature of professional nursing, its history, and professional roles, also provide the student with knowledge and skills, and positive attitude required for providing care to clients, families and society. This course enhances communication skills, interpersonal relations of student nurses and makes them effective members of the collaborative health care team. This course has a unique emphasis on effective critical thinking and decision making skills as a guide for a safe, competent and skilled nursing practice.

Course objectives:

Upon completion of this course, the student will be able to:

1. Assume responsibilities for learning by active participation in teaching-learning process.
2. Describe the historical development of the nursing profession in terms of theory, practice, education and research.
3. Identify the needs of adults.
4. Discuss factors affecting needs satisfaction.
5. List the roles of the nurse in the maintenance, promotion, and restoration of health and prevention of illnesses throughout the life span.
6. Demonstrate critical thinking skills in addressing nursing subjects
7. Develop knowledge, positive attitudes, and behaviors in accordance with the professional codes of ethics, standards of care, and patient's rights.
8. Describe essential aspects of the comforting process
9. Differentiate the terms concept, conceptual frame work theory, paradigm and meta paradigm for nursing
10. Identify the purposes of nursing theory in nursing education, research, and clinical practice
11. Identify the elements of critical thinking

Course policies:

1. Students are expected to prepare for lecture by reading assigned materials.
2. Attendance of lecture is a requirement and students should be on time student who miss more than seven lecture hour without excuse will be dismissed from the course.
3. Student should be dressed in the assigned dress code.
4. Students unable to take the scheduled exam should follow the proper university regulation otherwise he/she will get zero in their exam.

Medical Surgical Nursing Staff

STAFF

Prof/ Nadia Mohamed Taha
