# Post Graduate Doctorate degree

# Program specification of nursing administration for Doctorate degree 2020-2022

# **Table of contents**

- 1-Program specification for Doctorate degree.
- 2- Course specification for Doctorate degree.
- (A) First term:
- Nursing Seminar in Issue and new trends
- Nursing seminar in the area of specific specialty
- Nursing seminar in the area of General
- (B) Second term:
  - Nursing seminar in the area of General
  - Nursing seminar in the area of specific specialty
- 3-Vision & mission

# رؤية القسم:

رؤية قسم ادارة التمريض جامعة الزقازيق هي ان تكون رائدا بين الاقسام المناظرة على المستوى المحلى والإقليمي من خلال التحسين المستمر للجودة لتقديم تعليم واداء وابحاث متميزة لنفع المجتمع.

#### Vision:

It is accordance with the faculty of nursing & zgazig university visions:

Nursing administration department is a flourishing center of nursing administration able to compete nationally and internationally.

# رسالة القسم:

تتمثل رسالة قسم إدارة التمريض في توفير فرص تعليمية فعالة في إدارة التمريض لطلاب البكالوريوس والدر اسات العليا والبحوث الأكاديمية المبتكرة وخدمة المجتمع في إطار الجودة والاستقلالية

#### **Mission:**

It is accordance with the faculty of nursing &zgazig university visions

The mission of nursing administration department is to provide effective educational opportunities in nursing administration for undergraduate and postgraduate students, innovative academic researches and community service in frame of quality and independence.

Faculty of Nursing

Zagazig University

# Program specification of nursing administration for Doctorate degree

<b>A</b> -	A- Basic Information					
1-	<b>Program Title:</b>	Program spec	ification of nursing a	administration for		
		Doctorate deg	ree			
2-	Program Type:	Single √	Double	Multiple		
3-	<b>Department(s):</b>	Nursing Administration				
4-	Coordinator:	Dr/Sahar Han	ndy			
5-	<b>External Evaluator:</b>	Dr/ Mona Mostafa Shazly				
6-	Last date of program specification approval:	2019				

#### **B- Professional Information:**

#### • Program Aims:

Program aims to demonstrate continuous work on increasing the body of knowledge of student, apply systematic, critical analysis in integrating her specialty with different knowledge related to nursing administration, demonstrate an in depth awareness of staff problems, recent issues & trends theories pertaining to nursing administration, utilize different common skills & effectively working in a team to take appropriate decision related to her area of specialty, show perfection in utilization & conduction of scientific nursing research which are based on evidence, use the appropriate technological methods that serve the professional practices, and contribute to the professional self-development and others to enhance nursing care of patient.

### • Intended Learning Outcomes (ILOs)

a-	Knowledge and Understanding:		
	a1-	State theories and knowledge of basic sciences, evidence	
		based practices related to nursing administration in order	
		to make professional judgment that will help in	
		enhancing nursing profession.	
	a2-	Identify the legal and ethical issues pertaining to Nursing	
		Administration.	
	a3-	Describe ethical and legal principles that support	
		diagnostic and management decision of care	
	a 4	List the principles of quality in the context of Nursing	
	a 4	Administration.	
b-	<b>Intellectual Skills</b>	kills:	
	b1-	Analyze and assess information for obtaining induction	
		and deduction reasoning pertaining to Nursing	

		administration.
	b2-	Predict professional problems according to available resources
	b3-	Recognize risks in the professional practices
	b4	Utilize planning for the development of professional skills in the area of specialty
	b4	Conclude decision to make clinical judgment pertaining to nursing management.
c-	Professional and	practical skills:
	c1-	Demonstrate perfection of basic and recent professional skills in nursing administration.
	c2-	Assess professional reports
	c3-	Develop methods and tools already utilized in nursing administration.
	c3	Utilize advanced technological ways for serving professional skills in the area of nursing administration.
	C4	Utilize planning for the development of professional practice and developing others skills
d-	General and trans	sferable skills:
	d1-	Utilize effective communication, written, oral, electronic forms.
	d2-	Utilize information technological methods to serve & develop her professional practice.
	d3-	Mange effectively scientific meeting and show ability to manage time properly
	d4-	Motivate others learning and assess their performance.
	d5	Demonstrate the ability to work in a team and lead team effectively
	d6	Motivate self assessment and continuous education.

#### **3- Academic Standards**

3.1. The faculty adopted National Academic Standard (NARS) for post graduate studies, which follow the national authority for quality assurance and accreditation of education, February / 2009.

4- 11	he Benchmarks

#### **7- Program admission Requirements for:** (Regulations- Courses )

- The student should hold master degree in specialty course or related specialties from a university in the Arab Republic of Egypt at least a good grade or an equivalent degree from a college or a scientific institute last recognized by the Supreme Council of Universities.
- Registration begins from first Jun to 1<sup>st</sup> august.
- Pass an English language (TOEFL) with minim score of 500.
- Full time students are allowed to be enrolled at least for one year after they had master degree.

# 8- Methods of the Assessment of the learning target output:

No.	Learning target output	Method
1	Knowledge &understanding, intellectual skills	Written exam
2	Transferable & intellectual skills	
3	Transferable, professional & practical skills	Semester work (Seminars, presentation ) in addition to thesis
4	Comprehensive (knowledge and understanding).	Comprehensive written exam

# **9- Methods of the program evaluation:**

No.	Evaluator	Method
1	Students of final level	Questionnaire
2	Graduates	Questionnaire
3	Business owners	Questionnaire
4	External Evaluator	Questionnaire
5	Other methods	

# 10- Array of knowledge and skills of the education program:

Courses	Knowledge	Intellectual Skills	Professional skills	General skills	Attitude

Depart	tment offering the progr	ram	Nursing Administration department		
Depart	tment offering the cours	se	Nursing Administration department		
Date of specification approval			2019		
Acader	mic year		2020-2022		
2- O	Overall Aims of Course This course aims to equip the postgraduate students with				
es	essential knowledge, attitudes and practice needed to apply motivation and leadership				
th	theories, use strategies to deal with staffing problems, retaining the right staff&				
up	upgrading their practice.				
3- Ir	Intended Learning Outcomes of Course (ILOs)				

#### A-Knowledge and Understanding:

#### By the completion of this course, the student should be able to:

- A1-Define motivation, leadership, workplace violence, disaster preparedness, talent management, marketing, and magnet hospital,
- A2- List sources of violence
- A3- List types of violence
- A4-Identify all hazards preparedness task force membership responsibilities
- A5-Enumerate principles of talent management
- A6-Identify who at risk factor for potential violence
- A7-Identify people problem in talent management
- A8- Enumerate the characteristics of magnet nursing services
- A9-Identify forces of magnetism
- A10-List marketing Mix elements
- A11-list type of risk

#### **B-Intellectual Skills**

#### By the completion of this course, the student should be able to:

- B1- Differentiate between different leadership theories.
- B2- Distinguish between different motivation theories
- B3- Distinguish between different management theories.
- B4- Explain talent management process
- B5- Identify role of leadership and management in the prevention of violence
- B6- Explain role of leadership and management in hazards disaster preparedness

- B7- Describe process of the magnet appraisal
- B8- Explain role of leadership and management in marketing
- B9- Explain role of nurse manager in managing risk

#### c- Professional and practical skills

#### By the completion of this course the student should be able to:

- C1- Apply theories of motivation in clinical area
- C2- Apply theories of leadership in clinical area
- C3- Apply theories of management theories in clinical area
- C4- Use strategies for prevention of violence in clinical area.
- C5- Analysis the gap of all hazards preparedness
- C6- Use strategies of marketing
- C7- Use strategies for prevention of risk

#### d- General and transferable skills

#### By the completion of the course the student should be able to:

- D1- Works effectively with a team.
- D2- Manages effectively time
- D3- Applies communication skills in inter-professional, social and therapeutic context.
- D4-Uses of different sources for obtaining knowledge

#### E- Attitude skills

#### By the completion of the course the student should be able to:

- E1- protects and promotes patient / client rights to autonomy, respect, privacy, dignity and access to information
- E2- Acts as a role model for less experienced nursing care providers and nursing students
- E3- Communicates with patient / client with a respect for different values, cultures, intellectual levels and emotional state
