

Schedule of Scientific Seminars February/March 2023

Date	Department	Speaker/Place	Title
Monday 13/2/2023	Pharmaceutics	ص / محمد طلعت السباعي ONLINE on Microsoft teams, 7 pm	Preparation And Characterization of Nanosuspension
	Pharmacy Practice	م.م / ندى راضي السيد بدوي	Efficacy Of Sofosbuvir Plus Davlatasvir in Egyptian Patients With Hepatitis C Virus Infection
	Pharmacognosy	م.م / ارشا على حمزة على	Cytotoxic Constituents of Some Egyptian Plants And Spices Effective On Hepatocellular Carcinoma
	Biochemistry	ص / ريهام الدريس	Infliximab Substantially Re-Silenced Wnt/B-Catenin Signaling and Ameliorated Doxorubicin-Induced Cardiomyopathy In Rats
Monday 20/2/2023	Analytical Chemistry	د. محمد ذبيل	Protein Shotgun Tagging for Electrochemical On-Chip Diagnostics
Monday 27/2/2023	Pharmacology and Toxicology	ص / بسمة الشبراوي	Nebivolol Ameliorated Kidney Damage in Zucker Diabetic Fatty Rats by Regulation of Oxidative Stress/NO Pathway: Comparison With Captopril
	Organic Chemistry	ص / ايمان سمير	Novel Millrinone Analogs of Pyridine_3_Carbonitrile Derivatives as Cardiotoxic Agents.
	Microbiology	ص / محمود سعد	The Antimicrobial Resistance Crisis
	Medicinal Chemistry	ص / أسماء جمال أحمد محمد	Current Updates on EGFR And HER2 Tyrosine Kinase Inhibitors for The Breast Cancer
Monday 6/3/2023

Vice Dean for Postgraduates Studies and Research

Hany El-Bassossy

Prof. Dr. Hany El-Bassossy

The Dean

Amal

Prof. Dr. Amal Al-Gendy

6-2-2023

Schedule of Scientific Seminars During May 2023

Date	Department	Speaker/Place	Title
Monday 1/5/2022	Pharmaceutics	م.م. / نورهان عادل عبد الله	Formulation and characterization of a certain antipsychotic drug as intranasal nanoemulsion gel
	Pharmacognosy	ص / فاطمه عمر سليمان	How can plants protect us from EMR (mobile radiation)?
Monday 8/5/2022	Biochemistry	ص / أسماء عبد الحفوز	Inactivation of Wnt/ β -catenin/renin angiotensin axis by tumor necrosis factor- α inhibitor, infliximab, ameliorates CKD induced in rats
	Analytical Chemistry	ص / آلاء رضا محمد عبد الحفيظ	Development and validation of eco-friendly micellar organic solvent-free HPLC method for the simultaneous determination of some antihypertensive combinations
Monday 15/5/2022	Pharmacology and Toxicology	ص / نهي علاء الدين	Neuroprotective Effect of Barbaloin on streptozotocin-induced cognitive dysfunction in rats via inhibiting cholinergic and neuroinflammatory cytokines pathway-TNF- α /IL-1 β /IL-6/NF- κ B
	Organic Chemistry	ص / محمد عادل	Resveratrol: a short review of recent advances in anticancer drug
	Microbiology	ص / ايمان محمود	metallo- β -lactamase inhibitors in enterobacteriaceae
Monday 22/5/2022	Medicinal Chemistry	ص. دينا عبد الله	Selective cyclooxygenase-2 (COX-2) inhibitors used for preventing or regressing cancer

Vice Dean for Postgraduates Studies and Research

Hany El-Bassossy
Prof. Dr. Hany El-Bassossy

The Dean

Prof. Dr. Amal Al-Gendy

3٥-٤-2023

Schedule of Scientific Seminars During August 2023

Time/Date	Department	Speaker/Place	Title
Monday 11AM, 7Aug	Pharmaceutics and Clinical Pharmacy	د رباب زين العابدين Hall D	The effect of iontophoretic delivered polyplex vaccine on melanoma regression
Thursday 7PM, 10Aug	Biochemistry	أ.د. تامر محمد Online "Teams"	From the bench to the bedside - a journey to treat heart failure
Saturday 10AM, 19Aug	Analytical Chemistry	د. محمد نبيل Online "Teams"	Application of CRISPR-cas system in biomarker detection
Monday 11AM, 21Aug	Organic Chemistry	د. السيد ماهر Hall D	Current contributions of organofluorine compounds to the drug discovery
Saturday 9AM, 26Aug	Medicinal Chemistry	أم.د. محمود سباعي Online "Teams"	Covid vaccine analysis
Monday 7AM, 28Aug	Pharmacognosy	د. محمود زكريا Online "Teams"	Journal club
Monday 9PM, 28Aug	Microbiology	أ.د. جلال متولي Online "Teams"	CRISPR Cas9 genome editing of Budding Yeast

Vice Dean for Postgraduates Studies and Research

Hany El-Bassossy
Prof. Dr. Hany El-Bassossy

The Dean

Prof. Dr. Amal Al-Gendy

Amal Al-Gendy
26-7-2023

Schedule of Scientific Seminars During November 2023

Date	Department	Speaker/Place	Title
Monday 6/11/2023	Pharmaceutics	د. دينا عبد النبي	The Manufacture of Implantable Drug Delivery Devices for the localised Treatment of Brain Tumours
	Pharmacognosy	ص/ هبة محمد عبد السميع محمد نجم	The World of Pharmacognosy
	Biochemistry	ص/ محمود زاهر	Raspberry ketone ameliorates nonalcoholic fatty liver disease in rats by activating the AMPK pathway
Monday 13/11/2023	Analytical Chemistry	د. عمر محمد مجدي	Spectrofluorimetry and whiteness assessment
Monday 20/11/2023	Pharmacology and Toxicology	أ.م.د. شيماء سلامي	Biostatistics for beginners: An introduction to graphpad prism
	Organic Chemistry	ص/ ياسمين محمد	Triazole derivatives : chemistry, synthesis and biological activity
	Microbiology	ص/ ضحى مجدي عبد العزيز	Gene cloning and it's applications
Monday 27/11/2023	Medicinal Chemistry	ص. إسراء سعد عبد الباسط	Synthesis, Anti-Inflammatory Activity, and In Silico Study of Novel Diclofenac and Isatin Conjugates

Vice Dean for Postgraduates Studies and Research

Hany El-Bassossy

Prof. Dr. Hany El-Bassossy

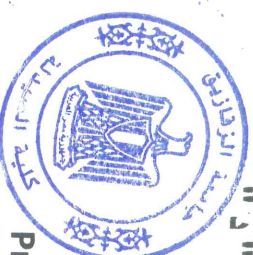

The Dean

Amal Al-Gendy

Prof. Dr. Amal Al-Gendy

30-10-2023

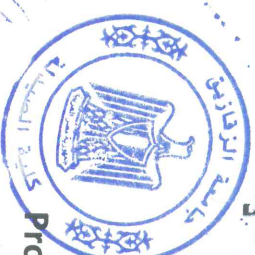

تبدأ كل السيمينارات الساعة ١٠:١٥ م في مدرج "د"

Schedule of Scientific Seminars During December 2023

Date	Department	Speaker/Place	Title
Monday 4/12/2023	Pharmacy practice	ص/ محمود عمار	Premixed versus insulin analogs regimen in type 2 diabetes: Comparison of adherence, patient satisfaction and quality of life.
	Pharmacognosy	ص/ علياء محمد شحاته	Successful use of an inhalational phytochemical to treat pulmonary tuberculosis
	Biochemistry	ص/ هبة محمد صلاح	New Hyperglycemia Emergency Guidance Updates DKA Definition
Monday 11/12/2023	Analytical Chemistry	ص/ أسماء محمد طه اسماعيل	Eco-friendly micellar HPLC approach for simultaneous estimation of combination therapy for Hidradenitis Suppurativa: applications to spiked human plasma and different dosage forms
Monday 18/12/2023	Pharmacology and Toxicology	أ.م.د. شيماء سامي	Biostatistics for beginners: An introduction to graphpad prism
	Organic Chemistry	ص/ إسلام محمد لطفي	Chalcone reactions
	Microbiology	ص/ محمود أشرف	Phage therapy to overcome MDR bacterial pathogens
Monday 25/12/2023	Medicinal Chemistry	م.م. إيمان أشرف متولى	Synthesis and biological activity of quinazolinone based compounds

Vice Dean for Postgraduates Studies and Research

The Dean

أ.م.د. أمال

Prof. Dr. Amal Al-Gendy
